

**WPIAL – Schools Without Geographical Boundaries Questionnaire Summary**

**Total Schools Receiving the Survey – 137**

**Total Schools Responding – 108**

**Boundary Schools Responding – 93**

**Non-Boundary Schools Responding - 15**

**As a school district, we believe schools without geographical boundaries have a competitive advantage over schools with established geographical boundaries.**

**Yes - 97**

**No - 11**

**Do You feel the competitive advantage is related to both team and individual sports, or simply to team sports?**

**All Sports - 74**

**Team Sports Only – 23**

**(\* response box did not open if the answer was NO to non-boundary having competitive advantage)**

**Do you feel that the existing PIAA Transfer Rule is functionally effective in controlling transfers that might result in a competitive advantage?**

**Yes - 26**

**No – 82**

**Attempting to create competitive balance, would you be in favor of separate tournaments for schools that have established geographical boundaries and for schools with geographical boundaries?**

**Yes - =93**

**No – 15**

**Would you favor a separated tournament for only team sports of both team and individual sport offerings?**

**Team Only - 23**

**All Sports – 70**

**(\* the response box did not open if answer to separate tournament was NO)**

**Does your district favor an expanded classification approach of all sports, to include those with an individual component, or are you satisfied with the expanded classification approach to team sports only?**

**All Sports - 78**

**Team Sports Only – 30**
